## **Overview of CO<sub>2</sub> targets**

We have defined the following climate targets for the financing business, the investment business and our own operations. Further details can be found in the Climate Report 2023. (<u>zkb.ch/reports</u>)

## **Overview of CO<sub>2</sub> targets**

Area	Targets	Base year	Methodology	Scenario
Financing business				
Residential mortgage business <sup>1</sup>	2030: 8.7 kg CO <sub>2</sub> /m <sup>2</sup> Energy reference area (ERA) (44 % reduction) 2040: 0.9 kg CO <sub>2</sub> /m <sup>2</sup> ERA (94 % reduction)	2022	PACTA <sup>2</sup> /own methodology Metrics: intensity (scope 1)	Energy Perspectives 2050+ (EP 2050+), Zero basis scenario residential property; 1.5°C compatible
Investment business				
As part of our sustainability standard fo	r active investment solutions, <sup>3</sup> we pursue a CO <sub>2</sub> e re	duction in o	ur investments in traditional asset cl	asses.
Asset Management				
20% of AuM <sup>4</sup> of Asset Management	$CO_2e$ intensity reduction of at least 4 % per year $^{s}$	2019	Own methodology Metrics: intensity (scope 1, 2)	IPCC "well below 2°C" scenario (67%)
25 % of AuM <sup>4</sup> of Asset Management (Net Zero Asset Managers initiative <sup>6</sup> )	$CO_2e$ intensity reduction of at least 7.5 % per year $^{\rm 5}$	2019	Own methodology Metrics: intensity (scope 1, 2)	IPCC 1.5°C scenario (50 %)
Own operations				
Own operations	2030: reduction to 1,800 tonnes of CO <sub>2</sub> e <sup>7</sup> Neutralising of the remaining emissions through negative emission technologies (NET)	2022 <sup>8</sup>	VfU (German Association for Environmental Management) key figures Calculation tool Metrics: absolute	-

1 Includes only residential properties (single-family homes, multi-family homes and condominiums)

2 Paris Agreement Capital Transition Assessment

3 Definition of "active investment solutions": relates to portfolio management mandates and investment funds, with the exception of indexed, individualised and third-party managed investment solutions and investment funds in the area of alternative investments.

4 Assets under management

5 Plus economic growth

6 Interim targets according to NZAM are published in our climate report (zkb.ch/reports) and at netzeroassetmanagers.org/signatories/swisscanto-invest/

7 We have already reduced our operational emissions by 68 percent since 2010.

8 The bank's last environmental programme for 2018-2022 serves as the basis for our new 2023-2030 environmental programme.

9 The following categories of the GHG Protocol are relevant within scope 3: paper (category 1), fuel and energy-related emissions (not included in scope 1 or 2) (category 3), waste (category 5) and business travel (category 6). NB: We are currently evaluating how we can expand the coverage of the operational emissions of Scope 3 categories.
